## Strategic Resources Stakes Additional Rare Earth Claims

**For Immediate Release**

**TSX.V: UVR**

**October 23, 2009, Regina, Saskatchewan – Strategic Resources Inc. (“UVR” or “the Corporation”)**, is pleased to announce that as a further complement to its uranium/vanadium projects in the Catron County, New Mexico and Apache County, Arizona, a series of lode claims have now been staked in the Lemitar Mountains area of Socorro County, New Mexico. These claims are highly prospective for Rare Earth mineralization. Officials from the New Mexico Bureau of Mines have studied this area since the late 1970s and have determined the dikes and veins in the Lemitar Mountains are carbonatites that display rare earth element enrichment patterns.

### **About Strategic Resources**

Strategic Resources is a Canadian based junior exploration company with uranium/vanadium exploration projects in Catron County, New Mexico and Apache County, Arizona as well as rare earth exploration projects in Lincoln County and Socorro County, New Mexico. More information about the company is available on line at [www.strategicresourcesinc.ca](http://www.strategicresourcesinc.ca).
